DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The present Application discloses glass micro-spheres and rear projection screens containing glass micro-spheres, which combine a particular index of refraction (preferable no grater than 1.7), and low levels of defects (about 15% defects in population) upon formation. More particularly:

Independent claims 1,24 specifically recites about 5% wt. Total of an alkali metal oxide selected for the group of Na₂O, K₂O, Li₂O, and combinations thereof, a specific wt % of Si₂O, and TiO₂,

Claim 1 also recites the specific defects in population as produced.

Independent claim 9 recites the micro-spheres including less than the total amount of alkali metal oxide than the theoretical amount based on the amount of starting materials.

Independent claim 10 recites the specific defects in population as produced and the micro-spheres including less than the total amount of alkali metal oxide than the theoretical amount based on the amount of starting materials.

Independent claims 21,22,23 recite a specific index of refraction, Si₂o, Ti₂O, and an alkali metal oxide.

All other independent claims recite the specifics above, or combinations of the specifics above.

These when in combination with all other specific limitations in the claims, make up for a structure that is neither obvious over nor anticipated by the prior art of record.

The prior art made of record and not relied upon includes Jones et al., wherein viewing surfaces of high contrast are disclosed; Takajama, wherein a screen for an Liquid Crystal projector is disclosed; and Oyama, wherein a light absorbing anti-reflector is disclosed. However, the prior art of record fails to, either alone or in combination, anticipate the invention as claimed. Hence the Notice of Allowability found herein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
